Purpose

Form BSEE-0131

General Information:

You may obtain the OMB-approved form, instructions to fill out the form, and historical data from the following website:

<http://www.bsee.gov/Regulations-and-Guidance/Safety-and-Environmental-Management-Systems---SEMS/OCS-Performance-Measures/>

Previous versions of the form have expired and will not be accepted. You must submit the current version of Form BSEE-0131, which is posted on the website listed. The form collects data from the prior calendar year.

Clarification on How to Report Hours Worked:

Sections E and F on Form BSEE-0131 are for reporting both company and contractor hours worked. This value is the number of **actual hours worked** during the calendar year on the OCS by those **production, drilling, or construction** operations employees assigned to an operator's OCS locations. Transportation

contractor hours worked should include all time worked regardless of location (excluding office staff and management), but should be allocated among multiple operators (if the services are shared), and distributed amongst the aforementioned categories in bold. Do not include hours for which the employee is off-work or sleeping. Therefore, record hours on a 24-hour basis only in the unusual event that an employee works through a full day.
